

Amfab is a full-line manufacturer of locomotive components. We specialize in engine and truck components, including brake rigging and other essential parts. Amfab is respected as an industry leader because we provide customized kits and continually improve existing truck products. Our customer-focused designs offer value by improving truck performance and addressing safety concerns.

Amfab's business philosophy is our primary strength, and our employees are the motivating force behind the Company's goal of continually improving products and services. We pledge to meet this goal through innovative design and manufacturing techniques while being responsive to our customers' needs.
